

Day 6: Wayback Machine & Digital Forensics -

What is the Wayback Machine?

Internet Archive's digital archive of billions of web pages (archive.org/web)

→ Preserves historical snapshots of websites over time.

- Over 700+ billion web pages archived since 1996.

Working:

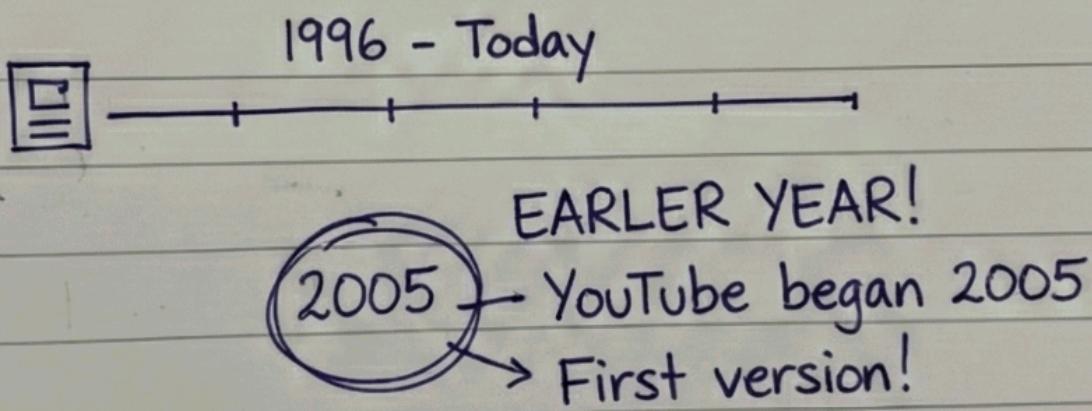

- Automatically capture and store web pages,
- Multiple versions of same page captured over time.
- Each snapshot dated and time-stamped

PRACTICAL TASK - YouTube's Past

→ Waybak Machine
archive.org/web

- Enter URL: <https://www.youtube.com>

swipe left for the detailed practical video -->
